European EC: The Annual Report 2019

We established reliable relationships in our Committee. In March we have got the request from the Board to look over the Healing Dance Ethical Agreement and edit for Watsu use. We had several discussions in emails and finally send our suggestions to the Board.

This year we had no Ethical complaints.

In April four members met on Zoom: Zdenka Jasova, Keli Procopio, Mary Seamster, Jurgita Svediene.

1. We discussed that the complaint form and the procedure the applicants should follow are clear.
2. We talked over a plan of action if the complaint will come and open the conversation with two communication facilitators - Fulvio Zanella from Italy and Izabel Chender from Canada.
One moment is not explicit – who pays the facilitator – WABA or the complainer, or both involved in disagreement?
3. We think that the course of Communication Ethics or Nonviolent communication skills should be mandatory for 4-6 hours to become Watsu Practitioner. It can be online course suggested by WABA or any other with good reputation.

Question to consider – should it be mandatory for Watsu Instructor? How often the course should be repeated?

We are here to be.
Jurgita, June 2019
